

- Periodicity estimation
- Mean simulated temperatures

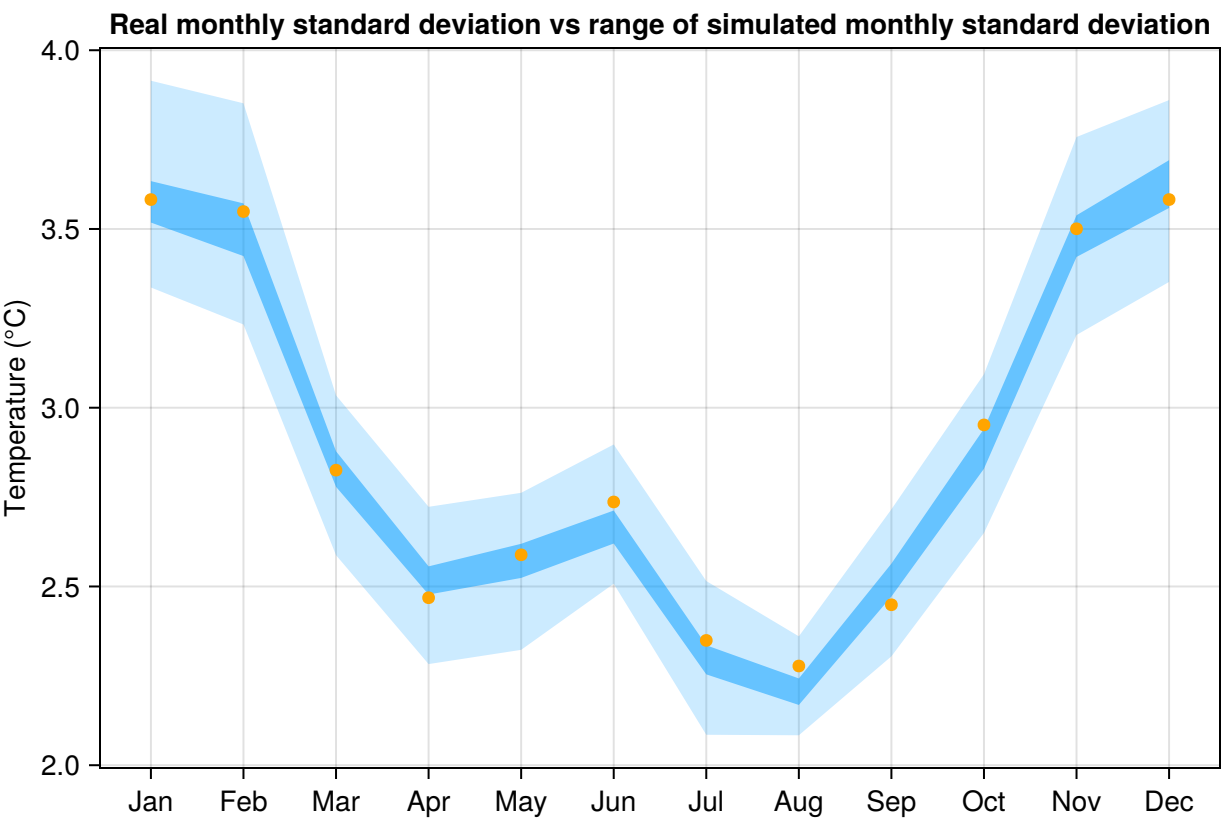

- Periodicity estimation
- Average recorded temperatures
- Maximum recorded temperatures
- Simulated temperatures range
- Simulated temperatures quantile interval, $p \in [0.25, 0.75]$

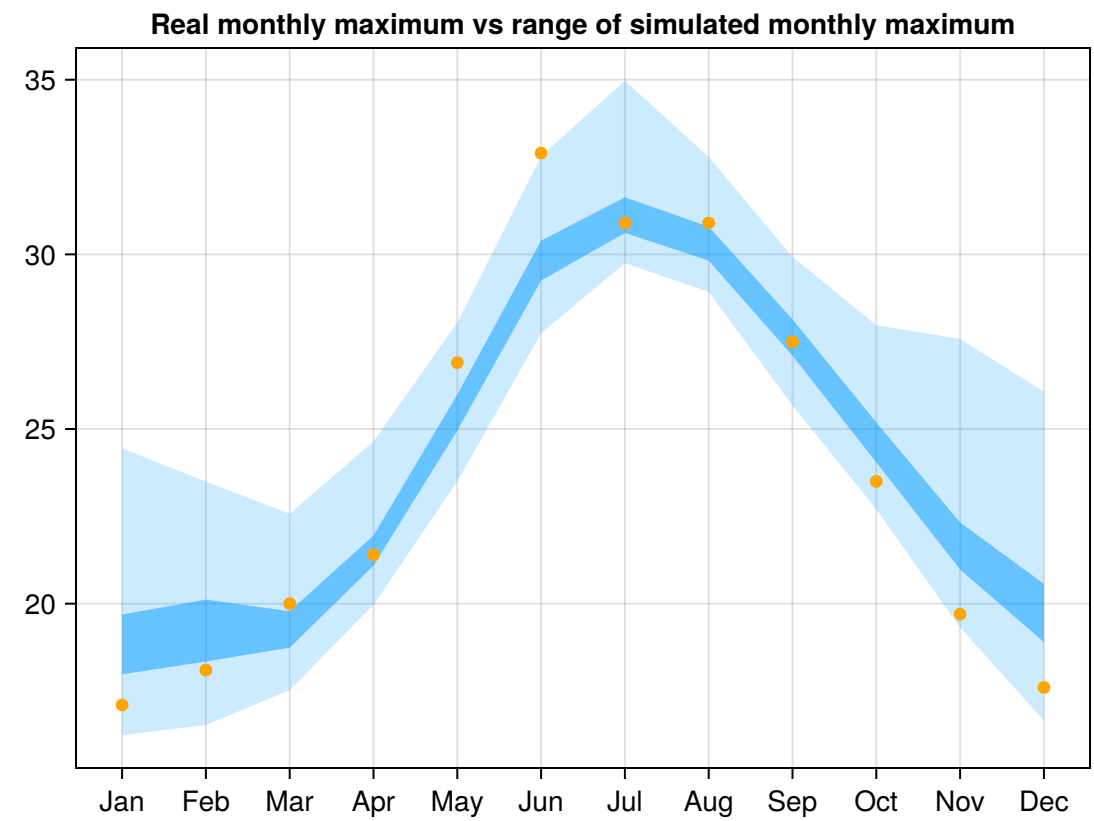

- Simulated temperatures range
- Simulated temperatures interquartile range, $p \in [0.25, 0.75]$

- Range of simulated monthly mean
- Simulated monthly mean quantile interval, $p \in [0.25, 0.75]$
- Real monthly mean

- Range of simulated monthly standard deviation
- Simulated monthly standard deviation quantile interval, $p \in [0.25, 0.75]$
- Real monthly standard deviation

- Range of simulated monthly maximum
- Simulated monthly maximum quantile interval, $p \in [0.25, 0.75]$
- Real monthly maximum
